(for example, all drum and percussion tracks in a single song) to be nested into their own folder tracks, and expanded for editing as needed.

Tempo curves
Easily create gradual transitions in tempo over the duration of a project. Transition types include Linear, Fast, Slow, Smooth, Sharp, and Hold. Tempo curves are an efficient way to create dramatic or subtle tempo changes in your project.

Elastic Zplane timestretching
With elastic Pro technology, you can perform dramatic time stretching and pitch-shifting of Beatmapped tracks while Retaining maximum sound quality.
